

**Therapeutic Touch Professional
Associates presents
*Transpersonal Nature of Therapeutic
Touch®***

**Saturdays Dec. 4 & 11, 2021
9 am to 6 pm PST**

Live interactive virtual event via Zoom

Are you ready to have your TT practice transform your life and ability to work with healing energy? This workshop is where people begin to come into their own as TT practitioners. You will:

- * **Explore** the interface between the emotional and vital energy fields.
- * **Experience** the 7 stages of consciousness that occur during a TT treatment.
- * **Deepen** your skills in working with the emotional field.
- * **Incorporate** color and imagery into the healing process.
- * **Work more specifically** with a variety of illnesses.
- * **Increase your sensitivity** in distance healing.
- * **Learn** about current energy healing research

More importantly, you will connect more deeply with your Inner Self and spiritual center so that it amplifies the intuition that guides your TT interventions.

Ample practice time will enhance your ability to mobilize the body's energies for healing. This experience is designed to provide supportive and personalized attention to your skill-building.

Prerequisites: A Foundations (formerly Basic) Krieger-Kunz TT Workshop approximately four months or more prior to this class and some practice of Therapeutic Touch. We ask that you practice twice weekly between now and the workshop: on people, animals, plants, anything living.

You will receive 14 ANCC contact hours for completing this workshop, which is the next step towards earning your Qualified TT Practitioner credential. See back for details.*

Workshop cost: \$175. Partial scholarships available.

More information/registration: www.therapeutictouchwashington.com/blog/classes

Your Facilitator: Kathy Wilmering, MSW, ARNP, BC, QTTT studied for several decades with TT co-founders Dolores Krieger and Dora Kunz. For over 35 years she has helped people heal physical and mental health challenges and has presented her work across the U.S., Canada, and the E.U. Kathy teaches with humor and clarity.

This continuing nursing education activity was approved by the American Holistic Nurses Association (AHNA), an accredited approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.#1472 Approval for contact hours through the AHNA is based on an assessment of the educational merit of the program and does not constitute en-dorsement of the use of any specific modality in the care of clients.

Address _____

City, State, Zip _____

Email _____

Profession _____

We are careful to tailor our workshops to the needs of our participants. Help us by answering the following questions:

1. Briefly describe your Therapeutic Touch practice during the past year. (For example, do you work primarily with family members, in a hospital setting, or other?)

2. Below, please check what BEST describes your Therapeutic Touch experience and fill in the appropriate spaces:

I consider myself :

_____ A TT beginner

_____ At intermediate or higher skill level

_____ I have never taken a TT course.

_____ I have taken a /some TT course(s) but have had very little practice.

3. List course(s), dates, and teachers:

4. How often do you practice? Please be honest, as it will determine how the course is structured.
5. What do you hope to have happen for you as a result of this workshop?
6. Please list any other healing modalities you practice. In what setting do you practice them?
7. Anything else we should know?
