The Many Shades of Color in Therapeutic Touch®

TTEC Zoom Program 09/23/2023 10:00-1:00 (EST)

Diane May RN QTTT RT presents this 3 hour primarily experiential workshop. Energy is made up of Light (color) & sound each with its own vibrational rate & wavelength of light. We will explore the literature about color as well as our unique experience of color & how to utilize it in TT. We will explore color as a vibration and color as an image. This experience may include temperature, sound, an emotion as well as the visual.

“We send what we are” (Dora Kunz). “It is not the intention that the colors themselves make the change, but that visualizing colors helps the way therapists think. Similar effects can also occur. Through the use of sound, or by engaging a mood or emotion.” (Dolores Krieger). But it is not the transference of a color that occurs during a TT treatment, but the state it creates in the practitioner that impacts how the treatment progresses. Diane May Wellness Education. The Secret Power of Connection Workshops TT, Business Training, Holistic Practitioner, Life Empowerment.
